BOOHER'S PLURALITY OVER MARTIN IS 224

Judge Henry Lamm of Sedalia was 19,684 in the lead of John Swanger for the Republican nomination for governor with 70 out of 114 counties heard from. It is figured that about 35,000 votes are yet to be tabulated and it is not probable that Swanger will be able to overcome Lamm's lead.

Lamm's vote was 66,737 with Swanger with 47,053.

The Jefferson City headquarters of Swanger have given up and say Lamm was nominated.

Frederick D. Gardner of St. Louis won the Democratic nomination for governor by 30,000 plurality with John M. Atkinson second.

Other nominees are:

Lieutenant Governor—Wallace Crossley (Dem.), Roy F. Britton (Rep.).

Secretary of State—J. Kelly Pool (Dem.), William C. Askin (Rep.).

Booher Has 224 Lead.

Congressman Charles F. Booher has a lead of 224 over B. R. Martin for the Democratic nomination for congress from this district according to the returns of Tuesday's election as sent in. Mr. Martin, however, is claiming his nomination by 50 votes over Mr. Booher.

According to the St. Joseph News-Press this afternoon, Mr. Martin will not file any contest. That paper figures Mr. Booher's plurality will be from 250 to 300. The vote will be canvassed tomorrow and the official returns will then be known.

B. J. POISON SCARE

CHILD OF MR. AND MRS. C. R. WILLIAMS IS DEAD.

6 OTHERS SERIOUSLY ILL

Cause Probably From Canned Meats, Bad Vegetables or Tainted Water —Funeral Tomorrow.

One death and six serious illnesses are reported from Burlington Junction as a result either of vegetable, canned meat, or well-water poisoning.

In the family of Mr. and Mrs. Sam R. Williams, one child is dead and the mother and two other children are in a serious condition. Several other cases have developed. The doctors are not sure as to the cause of the sickness, which acts like cholera infantum, but they think it is either the water or something taken in the vegetables or canned meats.

The three year old daughter of Mr. and Mrs. Williams died at 11 o'clock this morning after a painful illness. The mother and the other two children, Bessie, 8 years old, and Robert 5 years old, are said to be dangerously ill. The effect of the poisoning is so great that the patients suffer convulsions.

The funeral of the Williams child will take place tomorrow.

MARYVILLE'S 'HUMAN FLY"

Paul Smith Duplicated a Gardiner Trick Last Night With "Cat Skinning" Thrown In.

Maryville did not need to go outside of the corporate limits of the city to get a "Human Fly." Paul ("Shike") Smith, a 16-year-old negro boy, demonstrated that last night about 8:30 by climbing up the corner of the Nodaway bank building to the first cornice, where he turned a flip through his arms, better known as "skinning the cat," after which he climbed on up and over the cornice to the roof.

The stunt was a part of the Emancipation Day celebration. It thrilled the crowds downtown to hear the Omaha band concert. In the afternoon contests at the fairgrounds, Forrest Woodard and Maynard Collins, white boys, entered the bicycle race and won first and second easily with the prizes of $2 and $1.

M'GREGOR REUNION

NODAWAY MEMBERS OF FAMOUS SCOTTISH CLAN TO MEET.

MRS. EMBREE, HOSTESS

Her Seventy-fourth Birthday Will Also Be Celebrated—Governor Capper of Kansas Invited.

Fifty members of the MacGregor clan, who live in Nodaway county, will hold a reunion at the home of Mrs. J. V. Embree, two miles southwest of town, next Wednesday, August 9, which will also be Mrs. Embree's seventy-fourth birthday anniversary. An invitation has been extended to Governor Arthur Capper, who is a member of the clan, to attend the reunion but it is not known yet whether he will be able to attend.

The MacGregor clan, which claims among its members some of the most distinguished men in Scottish history, and some of the first names in America, consists of the direct descendants of MacGregor, a noted Scottish chief. During the War of the Roses he was banished from Scotland to Ireland and the family name was shortened to McGrew. Consequently, all of the McGrews are direct descendants of the original MacGregor clan, and right proud are they of their distinguished lineage. The late President McKinley was a member of this clan, and had the history of the clan written up before his death.

It is customary for the clan to hold annual national meetings at McKeesport, Pa., and Mrs. Embree, and some of the other Missouri members, attended several of these reunions. This year since it was impossible for the members to make the trip, they decided to have a reunion of the Nodaway county portion of the clan at Mrs. Embree's and hence the extensive preparations that are being made at the Embree home for the reception of the members of the clan.

It is planned to have a picnic and basket dinner on the lawn at the Embree home. The members of the clan with their wives and families will come to spend the day to talk over history and current events, and to visit with Mrs. Embree, who is the oldest member of the clan in Nodaway county.

GREAT SHOTS COME AT MARYVILLE GUN CLUB

MR. AND MRS. TOOPERWEIN TO BE HERE AUG. 13.

Man and Wife Hold Marvelous Records for Continuous Hits and Fancy Trick Shooting.

Mr. and Mrs. Adolph Topperwein, the celebrated marksmen, will give an exhibition of expert and fancy shooting at the grounds of the Maryville Gun club Sunday, Aug. 13, at 2 p. m. Mr. Topperwein in the acknowledged dean of fancy and trick shots, and his many feats are of a highly sensational character. Mrs. Topperwein has no equal among women for adeptness in shooting.

In the most remarkable exhibition of rifle shooting ever given, Mr. Topperwein shot for ten days at 72,500 2¼-inch wooden blocks thrown into the air by an assistant, missing only 9 out of the entire lot. During the shooting he made straight runs of 14,540, 13,599, 13,292, 13,219 and 10,383.

He used two Winchester automatic rifles and Winchester cartridges, and the loading of the rifles was done by himself. Considering the almost incredible score and the tremendous strain of such incessant shooting, it is unlikely that this record will ever be beaten.

Her Record Great, Also.

Mrs. Topperwein, who also represents the Winchester Repeating Arms company, is under [illegible] the premier lady [illegible] of the world. Although she took up shooting only a few years ago, she has startled the shooting world and entertained many thousands of people by her great skill with rifle, shotgun and pistol. Shooting comes natural to her, as without seeming difficulty she masters various kinds of shooting quickly.

Her first public appearance was at the world's fair in St. Louis, where with a Winchester automatic rifle she broke 967 out of 1,000 2½-inch flying targets; and later 1,995 out of 2,000 with a straight run of 1,437.

Mrs. Topperwein is the only lady in the world who ever had the honor to qualify as a national marksman in open competition, shooting at 200, 300, and 500 yards with a military rifle.

With Mr. and Mrs. Topperwein will be Charles G. Spencer of St. Louis, D. D. Gross of Kansas City and probably other expert shooters.

ROGER CASEMENT MEETS DEATH AT 9

FAMOUS IRISH NOBLEMAN PAYS PRICE OF LOYALTY.

ARRESTED IN SINN FEIN APRIL UPRISING

Home Department Refuses to Turn Body Over to Family—Became Catholic Just Before Gallows.

Special to The Democrat-Forum.

London, Aug. 3.—Sir Roger Casement was hanged for high treason in the yard of the Pentonville prison. Tolling bells at 9:08 o'clock announced his death. He went to the gallows without emotion, declaring he gave his life for his country. Death was instantaneous.

Just before execution Casement was admitted to the Catholic faith. It is reported that he left a statement of his activities but it is not confirmed by prison attaches. Following the execution Casement's legal representative announced that the home office had refused to turn over the body to the Casement family.

Roger Casement, for such he has been since he was shorn of his knighthood title by King George in June, has been an outstanding character of the world war period. His dream was to free Ireland of England's rule and it was while engaged in an enterprise toward that end that he brought on his own downfall.

Casement's plans in behalf of Irish freedom were hatched partly in the United States and partly in Germany, but it was in the latter country that the scheme came to a head.

Sinn Feiner With Germans.

He was arrested on the southwestern coast of Ireland on April 22 last, after he and two companions had been landed from the German submarine U-19, which had taken them to Ireland from Germany. The submarine had been accompanied by a German steamer disguised as the Norwegian freighter Aude, which was conveying 20,000 rifles and ammunition for use by the Sinn Fein rebels with whom Casement had been in communication before leaving Germany. These munitions, it developed, had been furnished by the German government although Casement afterward, while on trial, denied that Germany had had anything to do with the fostering of the plot.

Casement was born on Septe[illegible] 1, 1864, of Irish parents. H[illegible] career began in the s[illegible] Coast Oil Pro[illegible] 1895 he [illegible] Lorenco Marquez (Africa) and later was consul in the Portuguese possessions on the west coast of Africa, south of the gulf of Guinea. Subsequently he was employed on special service at Capetown during the Boer war. Then he was transferred to the Congo state and in 1905 was made C. M. G. (Companion of St. Michael and St. George) in recognition of his services in Africa. Casement was elevated in the knighthood in 1911. In the meantime, from 1909 to 1912, he was employed as titular consul in making certain inquiries relative to the rubber industry and in 1912 was retired on pension.

GOOD CORN AROUND B. J.

J. James Tells Journal of Crop Conditions.

"We have received several good showers in my neighborhood during the last two weeks, and our corn is in splendid condition," said J. James, a successful farmer and feeder of Burlington Junction, Mo., who was in today with a load of hogs of his own raising. "The corn has tasseled out and has already formed large ears of corn. If we get as much moisture the next two weeks as we have had the last two the quality of the corn could not be much better. The stalks are staying green and the ears are growing to enormous size, and there are as many ears on the stalk as usual."—St. Joseph Stock Yards Journal.

INDIANS STAGE BEST BRAND OF BASEBALL SEEN HERE.

THIEMAN AS USUAL WINS

Maryville Pitcher Smashes Out Triple in Twelfth Which Cycles Game Near End.

The Feds and the Cheyenne-Arapaho Indians [illegible]esterday afternoon staged a real ball game [illegible]at the fairgrounds. A large crowd saw [illegible]do it and left the grounds well pleased [illegible]h the best game played here this seas[illegible] It was a twelve inning affair and [illegible]Feds had the best of it by a 3-2 count.

This team was probably the best team that has played the Feds here this year. The Indians have been "Cleaning up" on everything and made the Maryville boys go hard to beat them.

The game was a pitchers' battle all the way through . Christopher, pitching for the Indians, showed real class and had something the Feds have been weak on—a good curve ball. Good fielding was a feature of the game, only one error figuring in the scoring.

The contest did not start until 4:45 o'clock on account of other events at the fairgrounds. The redskins jumped into the scoring in the second frame with two runs. White Shield and Little Eagle singled and advanced a base on an out. They both scored when Cowal dropped Flack's line drive.

Feds Right Back Again.

It did not take the Feds long to recuperate, however, as they tied it up in the fourth. Cowal singled and scored on Moore's double to right center. McCoy also delivered with a double, scoring Moore. The count stood 2-2 until two were down in the twelfth. It was then 6:50 o'clock and "Jeff" Thieman must have been hungry, for he [illegible] across with his good old hit, a triple. Th[illegible] hurt his ankle slightly, and Cowal took [illegible]place on the base. McCoy drew a pass and started for second on the first ball pitched. He made a safe slide into the second sack, while Cowal crossed the plate with the winning run.

Thieman allowed only two hits after the third inning and struck out twelve during the game. Both twirlers seemed to be as strong at the end of the game as at the start.

The Indians were good sports, not "beefing" at a single questionable decision.

The Clarinda tournament was postponed until tomorrow and the Feds will go if the weather permits. They will go to Barnard Saturday and to Albany Sunday.

HERE'S A LUCKY FAMILY

NOT TROUBLED WITH SO MANY BIRTHDAY CELEBRATIONS.

Can... Albert Logan and Sister, Thos... T. Patton, All Born on Noday... Aug. 2. Parne...

Birthday anniversaries are things that every family has to face. And the larger the family the greater the problem. Little Willie's birthday has just passed and he is driving every one in the block crazy with his new horn and wagon, when along comes little sister's, and she must have a party with birthday cake and candles and all of her presents besides.

In like manner roll around the birthdays of father and mother, big sister and big brother, and when those are over it is time for Willie to celebrate again. No doubt many mothers and fathers wish that all of the birthdays could come on the one day and be celebrated as a family festival, thus doing away with the birthday problem.

There is one family in the county that comes very near doing this. Three members of the family have their anniversaries on the same day. They are Alfred and Albert Logan and Mrs. J. T. Patton of Skidmore. These three members of the same family celebrated their birthdays yesterday at the home of their parents, Mr. and Mrs. J. W. Logan of Skidmore.

Alfred and Albert Logan are twins and are 36 years old. Their sister, whose birthday falls on the same day as that of the men, is two years younger.

The "Twin Logans," as they are known in that section of the country, were born near Quitman, and there grew to manhood. Eight years ago the family moved to Skidmore, and the men established themselves in business there. Albert is proprietor of the Skidmore garage and Alfred is a contractor and builder. Both are married.

CHEER UP! YOU CAN'T HELP YOUR BALDNESS

It's Hereditary, Says Miss Osborn, and Not Due to Fever or Tight Hats.

Washington.—According to Miss Dorothy Osborn of the Ohio State university, baldness in men is inherited just as much as horns in sheep.

Family histories which she has gathered show that neither typhoid fever nor tight hats cause baldness, but if your father was bald then you are doomed.

Baldness in women is more frequent than is generally known, she declares, "because women can conceal their baldness much more easily than men." She finds that a woman is bald only when she inherits it from both parents. If one of her parents was bald, however, she may transmit baldness to a half of her sons. If a mother is bald all her sons will be bald, no matter whether the father is or not. Her daughters will not be bald unless the father was also.

IS SORRY FOR ALL SHE SAID, WIFE ADVERTISES

That Being the Case, She Can Come Back Home, Replies Lone Husband.

New York.—If you don't know just how a wife should reply to her husband's announcement that he isn't going to be responsible for her debts any more perhaps this card, which was printed in a newspaper in Mineola, N. Y., may help you—and perhaps it may not:

Mrs. Herman Ertel wishes to announce that after leaving her husband for six months she is now sorry for it and wishes to return, being sorry for all she has said. She promises to do all in her power ever after to make their home a happy one.

MRS. HERMAN ERTEL.

Herman Ertel, who is an engineer and lives on Mineola boulevard, advertised six months ago that his wife's debts wouldn't be paid by him. He said, not in these exact words, but to this general effect:

"I have been receiving letters from my wife, Hedwig, of such a pleading nature asking me to let her come and live with me again, saying she was lonesome and now realized all I mean to her, that my heart melted. I have agreed to try married life again. My wife agreed to make a public declaration of her mistakes and a denial of the accusations she has made against me."

DUCKS DO HIS ANGLING.

With Line and Hook to Their Legs They Bring In Fish From Lake.

Leitchfield, Ky.—Henry Cecil of Cecilia in a lake near his home has devised a most successful and novel way to catch fish, according to Roy Bond.

Cecil has a number of ducks that frequent this lake. He ties a short fishing line to the duck's foot with the hook baited. The duck swims about the lake, fishing all over it. When a fish strikes he pulls the duck's leg, and Mr. Duck, not understanding what this means, turns and flees to the shore just as fast as he can.

Cecil takes off the fish, rebaits the hook and throws the duck back into the lake to renew the fishing. He has a number of ducks fishing for him at the same time and has caught 100 pounds of fish this way.

TORCH CLEANS OUT JOINTS.

Oklahoma Girl Fires Places Where Father Spent Money.

Bartlesville, Okla.—The torch is the most effective weapon to be used in fighting joints, according to the notion of a nineteen-year-old Copan girl who admits she fired a Copan pool hall and rooming house where intoxicating liquors are said to have been sold and which has just been closed by an injunction.

The girl says her father was spending all his time and money there. Copan is on the booze trail leading [illegible] Kansas into Oklahoma. The girl has warned all bootleggers that the town is to remain closed. She even threatens to form a squadron of women to be known as "High Jackies" to war against the liquor traffic.

COLLEGE HOUSE GOES.

Old Harvard Dormitory to Be Torn Down For Hotel.

Cambridge, Mass.—Harvard university has disposed of the College House, one of its oldest dormitories, and the purchasers will tear down the old building and erect a modern structure, which is to include a family hotel, the first one the city has had for several years.

In the deal it is said that Randolph Hall, a Gold Coast dormitory, was one of the parcels exchanged. The college authorities are planning to buy other private dormitories and thus control exclusively the housing of the student body.

Fish Lived In Box Nine Months.

Beloit, Kan.—Last October Ray Corn caught eleven catfish in the river near here and placed them in a "live" box for safe keeping over night. The next day the fish, box and all, were gone. The water is low, and Corn accidentally found the box stuck in the mud. In raising the box two of the fish escaped, but the rest were as lively as when he placed them there. Enough food floated through the cracks to keep them alive.
